

ROHIT PATIL

Frontend Developer

Nilgari, Surat • +91 7038394748 • patilrohit19649@gmail.com

SUMMARY

I am a skilled Frontend developer running in creating highperformance, cross-platform web applications. I specialize in designing and implementing intuitive user interfaces and have a strong background in both React and Web development frameworks.

PROJECTS

Myntra Clone

- Category-wise Products: Users can browse Products organized by different categories.
- Store Favorite Products: Users can save their favorite Products for easy access later.
- Set Products: Users can set their favorite Products as Cart on their Wishlists.
- Add to Database: Users can add new Products to the database.

Flipkart Clone

- Implemented key features including product listings, search functionality, user authentication, and a shopping cart using modern web technologies such as Html, Css, Js and Json Server.
- Created a Products with Details and an intuitive, user-friendly interface.

Firebase Crud Operation

- Secure user authentication using Firebase.
- Firebase Firestore: Real-time data storage and retrieval for chat messages and user information.
- Notifications: Push notifications to alert users about new messages or activities.
